www.accessmedicine.com

From quick reference to comprehensive coverage

The screenshot displays the ACCESS Medicine website interface. At the top, there is a navigation bar with links for Home, Textbooks, Multimedia, Q&A, Drugs, Updates, Dx Tests, DDX, Guidelines, Quick Answers, Case Files, Patient Ed, Clerkship, Custom Curriculum, and My AccessMedicine. A search bar is prominently featured, with a dropdown menu set to 'All AccessMedicine' and a search button. Below the search bar, there are tabs for FEATURES, TEXTBOOKS, and ADVANCED SEARCH. The main content area is divided into several sections: 'The McGraw-Hill Companies AccessMedicine collection includes:' featuring 'Harrison's Online', 'Goodman & Gilman's The Pharmacological Basis of Therapeutics, 12e', and 'CURRENT Medical Diagnosis & Treatment 2012'. A 'Quick Answers' section offers expert information on diagnosis and management. 'Case Files for Students' includes a table of subjects: Anatomy, Pathology, Emergency Medicine, Pharmacology, Microbiology, and Physiology. A 'Board Review Plus' section for USMLEasy is also present. The 'IMAGE OF THE DAY' section shows a photo of a lung with a 'View Large' and 'View in context' option. The 'VIDEO OF THE MONTH' section features 'The Male Genitourinary Exam'. On the right side, a 'Custom Curriculum' section shows progress for 'Diabetes (Type 2)' at 60%, 'Bradyarrhythmias' at 92%, and 'MI' at 14%. An 'AccessMedicine Updates' section lists recent updates with RSS and Podcast icons.

Macular degeneration

From POSTGRADUATE MEDICINE / VOL 113 / NO 5

You've noticed that your eyesight isn't what it used to be. For many people, activities such as reading, writing, and driving get more difficult with age. Age-related eye diseases, such as glaucoma and cataracts, are becoming more common as we live longer. Another eye disease that occurs frequently but is less well known is macular degeneration, which affects more than 10 million people in the United States.

Education Tools

The screenshot shows the AccessMedicine website interface. At the top, there is a navigation bar with links for Home, Textbooks, Multimedia, Q&A, Drugs, Updates, Dx Tests, DDx, Guidelines, Quick Answers, Case Files, Patient Ed, Clerkship, and Custom Curriculum. A search bar is located below the navigation bar, with a dropdown menu set to "All AccessMedicine" and a "search" button. To the right of the search bar are links for "Enable Autosuggest", "Advanced Search", and "About Search".

Three callout boxes highlight specific features:

- Question 1 of 2:** A multiple-choice question about hemiplegia and sensory deficit. The question asks for the "one best" response. The options are: A. left middle cerebral artery, B. right anterior cerebral artery, C. left posterior cerebral artery, D. left superior cerebellar artery, and E. anterior communicating artery. A "Submit" button is at the bottom.
- Clerkship Corner:** A section titled "Clerkship Corner" with a list of learning modules: "Circ Introduction", "Diabetes (Type 2)", and "Hypertension".
- Custom Curriculum:** A section titled "Custom Curriculum" with a large "C" logo and the text "Custom Curriculum". Below the title, there is a list of updates with dates and titles, including "11/30/2011 Dabigatran" and "11/29/2011 Update: Hanson's Online".

At the bottom of the page, there is a section for "Case Files for Students" with a table of subjects and a "New! Free Audio Cases!" banner.

Some foodborne illnesses are spread through lack of hand cleaning. In fact, certain strains of E. coli, salmonella, and other bacteria can live on surfaces like cafeteria tables and doorknobs for up to two hours.
